11/14/68 - a.m. - A county with candidates for Governor, President & Johnson Supporter, who embezzles any what he calls "certainty"; bubbles w/ certainty, ~~was~~ usually unresponsive and unresponsive to the lies they misrepresents public security and foreign need is by this tactically undefined, they, Men be making a decision by what a person says he had gotten than $50, in his life) it isn't possible to know what he's got nothing at all what that is $499,999.98, which is not $500,00. He does acknowledge getting more than the $25,00, he received in his petition any need to acknowledges he had before his campaign first visit any But he is not sure said that in saying what was only a few payments he had said enough, he is by no means about the election a decision prompted and Randy says it is entirely possible, that if the "certainties" were satisfied, nothing

The Motive. So that any thing tending to enlightment becomes good and ~~of~~ profitable with Official knowledge.

He would not allow me to stop. He skipped from one phase of this question into another & insisted that with out this we can have no understanding.

Nothing, in fact, embarrassed him. He was in control, & knew it.

He readily admitted that having the Papers before him & that fact in the case of what we had been told by others (Assumption only) they were Proof & his act. First he explained this by saying "They prove just what I do", Then by showing it makes no difference because the President was elected any way.

He is the kind of man who would without qualm say any thing added of him by any "authority" by which he was visited & "Provided".

Late of Cornish Tom Barrett report
which he acknowledged having told the
N.Y. Times but not published at
Gillette's request and "Mike was
Bent," like the Phillips & his post-
mortem, he is entirely unconcerned by
discrediting & what transpires &
later emerging. Again he asked
what difference it made if what he
had been told & would not have
fixed up in an official report attributed
to him.

I then called him & as before he
ignored me & others & "Mike's"
Assassination. That he got on
Monday even & his post was Wilson
& how he worked in bars & knew some
white dicks & do his work does not concern
him. The money he got is not "changing
the world" several times over just
as it was got with less argument, during
which I worked out on him.

He is very thin but the gentleness,
sincerity, unselfishness mean he persists

him only - not daily in their money
but. While I was with him he got a
case of apparently the simplest type
nothing I would do to stop it. He told
whoever was to be Dr next I bet
of me "If they get sick they get paid;
if they just, they can wait".
The above Bishop, with whom I was intimate
that Life had [illegible] during 35 yrs, was a
very good & devoted person & had long
practised in connection with asylums,
he might not have said what Pearce was,
but he had gotten $40,000 by the time
when he & Rev Bishop, who could
have no longer with Life that
appears when I challenged him to tell
Lewis of Life. I still more had had a
contract with Life & it was then the
[illegible] payment. He threatened to produce
it & then produced it. He burst
[illegible] & said he knew that when
he did not have to tell the N.C. how
much he got & he cried he "
and then to the arrangement, [illegible]

he did not feel it to be Life, or worthy, as the basis that he gave the case of Mr. Lovell SS officer Lifts before the Orig visit left town, he says he then planned after the original visit in the office in which he then was. If this is true - and I asked Lantel whether anything he says is - then why then no confirmation or damage to it by the being known, the later official story. From his comments, this was regarded as the price of the cooperation. I read him his testimony, that he had told the reporter not to use his name, although she actually got it in use, but reluctantly. He first pushed not to know the meaning of this new word, "not use". I then started to explain, saying I was not using it but he pretended not to understand and then, apparently not realizing the import, he insisted it was his desire that the film not be used.

Not letting anyone see the film

is not suppression — as long as the government has seen it — "the Authorities"

No one else has any right to, nor has anyone else the right to censor or express opinions.

The book said that as long as the false account of the President's murder is official it is perfectly okay for the FBI to lie. Nothing should be hid.

He says he has never read his testimony — only "part" of it (yet it is very short) and has no copy of it.

When I showed him the most important pages of the original here mutilated he at first denied it, telling me a liar then again said it made no difference.

He even made me be sure I knew Phil Hirsch is! I told he knew nothing of Hirsch's future.

He impressed this & the most transparent, childish deceptions with not even a how lovely smile & wickedness they have and, leaving

Mitchell Henry Pinch, seemingly unmoved
by the fact that they were dead, declared
his conclusions would not alter them.
There was nothing so impossible for him
to admit, nothing so ridiculous
for him to affect as an open mind
belief.

On this day interviewer argument
Pinch kept up a single comment
made to which, in candour, he did not
attempt one such a response. He had
been insisting that writers have no
responsibilities as people but only that
the only ones that had meaning were
artistic when I asked him if he knew of
Dorothy Sayers. He said he did. I
asked him about Zola. The writer who
had risked his life to defend the
by the authorities. He has silent. I
asked what the Dreyfus case did to the
Jews of France & literature. He persisted
silent. No other point was he. He
would always mention some Russian
novel. It probably got on my

told him straight he should be ashamed of himself, a grown man behaving such nonsense, talking so irresponsibly.

He is almost entirely bald, with a thin fringe of greying hair around the back of his head. He is well tanned, yesterday afternoon he took Mr Hay golfing. He is about 55-60, perhaps 5-6 or 5-9, well built but not fat, perhaps 155-160 with a flexible mouth. He was not ladylike when he greeted me at the door (6x8) wearing corduroy pants which the Steyer kept the [illegible] hole elevator open, he had apparently let boy into his office before he said to suppose he should after me he was had, stood in and pretended a secretary. He just has not happy to be interviewed & did not like it.

He did not care that fatty & misleading statements had been printed from him & did not deny that he had seen

The President must take Dear Ole Rapp Sap, because, do him, if it is found it is okay & he is not at fault. Can anything worse? A midship lack of it.

I have never, ever, met anyone as unconcerned about lies, false swearing, misrepresentations, as thoroughly persuaded that "authorities" can do no wrong & that whatever they do is right only if because they do it.

Even knew this if still seem unreal seems that they just could not be an elected Republican.
